33) What did you especially like about this course?

Response Text	Frequency	Response Percent
Every week had interesting material, it didn't seem like any one week was more or less important than any other. The schedule was consistent and well organized. Teacher was nice and friendly.	1	3.33%
I enjoyed how the writing assignments allowed for personal freedom in what we wanted to say. There were prompts and we had to elaborate a discussion through our own words.	1	3.33%
I enjoyed the readings that we had.	1	3.33%
I have always wanted to take a feminine theology course, and it lived up to the expectations!	1	3.33%
I liked how the professor divided the coursework into the weekly categories such as, History & Scope of Feminism and Intersectional Feminism etc.	1	3.33%
I liked how the readings and how they built off each other, and the clear instructions under the additional readings.	1	3.33%
I liked how well organized everything was	1	3.33%
I liked the content (readings, audio, and video) in the course, it helped me more deeply think about things that I already have in my mind a lot.	1	3.33%
I liked the sociological and philosophical aspects that give me a different background of the worldview.	1	3.33%
I loved the openness that my instructor encouraged through discussions and assignments.	1	3.33%
I really enjoyed the readings, especially about testimonial injustice	1	3.33%
I really enjoyed the subject matter.	1	3.33%
I understood why the Female sex is suppressed the way they are now. Thank you for this course!	1	3.33%
Instructor Sicilia was amazing. She gave crazy fast feedback on all assignments and provided all relevant material (lecture PowerPoint and PowerPoint). She was informative and took the time to create her own lectures rather than provide another instructors. This made it easier to understand the material and provided a personal touch that was greatly appreciated!	1	3.33%
NA	1	3.33%

Professor Sicilia was wonderful and I genuinely can appreciate her teaching style. She is one of the few professors I've had with UofA that provides videos that pertain to the content. With that being said, the material is just not material that I believe in, no matter how well it was taught. It seems that many UofA courses have become highly politicized and that's a bit detracting for me. I don't want to take away from Professor Sicilia's teaching however, I just can't agree with the content.	1	3.33%
She's an amazing professor who listens and genuinely wants everyone to succeed.	1	3.33%
The class materials were very well rounded and offered opinions from many different people and backgrounds.	1	3.33%
The constant engagement from the instructor was appreciated.	1	3.33%
the content	1	3.33%
The content covered and presentations by the professor were fantastic.	1	3.33%
The course was exceptionally well organized. All information, content, due dates etc were easy to find and in one place. Expectations were clear.	1	3.33%
The materials. The readings, videos, and podcasts were thoughtfully selected to help round out the learning objectives. The powerpoints with the lectures were nicely organized and went well with the reading material, clarifying important points.	1	3.33%
The organization of the class materials.	1	3.33%
The videos	1	3.33%
There were multiple resources for information	1	3.33%
This course offered information and learning in a subject that I am aware of but have never learned about. The Instructor made it easy to learn and made it relevant to learning about what is going on in the world right now.	1	3.33%
This was a very interesting and well taught course.	1	3.33%
very few things	1	3.33%
No Response	1	3.33%

34) What suggestions would you make to improve this course?

Response Text	Frequency	Response Percent
.	1	3.33%
I don't have any suggestions as I thought this class was very well structured.	1	3.33%
I don't know if I would make any. I really enjoyed the entire class	1	3.33%
I would have really liked if the course was longer. There were so many things to learn and if it were longer I would have been able to process and potentially learn more about the subject.	1	3.33%

I would like to read current feminist writing if possible, but I can branch out and do that on my own as well.	1	3.33%
I would like to see less pushing of a certain feminist agenda	1	3.33%
I would maybe lower the reading amount for the week, to make the time more manageable with the quizzes and discussions.	1	3.33%
I would suggest requiring only one discussion post or reply-- some of the readings were long and/or dense, and so the workload, especially in a five week long course, could get unwieldy.	1	3.33%
I'm not sure, I enjoyed it overall!	1	3.33%
Lectures were well planned and thought out. I would have liked to hear more spontaneous dialog from the instructor rather than just mostly reading the powerpoints. Also, I would have liked a tad more written feedback on the written assignments besides just a grade.	1	3.33%
Maybe hearing some of the instructors personal takes on the weekly topics.	1	3.33%
More interactive assignments	1	3.33%
More questions on the quizzes	1	3.33%
My biggest suggestion would be to maybe add an analytical paper of one of the readings, the audios, or videos. The class discussions helped analyze the content, but I was never really sure if I was taking away what I should be. I think that would have helped me better understand the content, then just the final paper that felt more like an, "how does this apply to your life?" type of prompt.	1	3.33%
N/A	2	6.67%
N/A. The material was well taught.	1	3.33%
NA	3	10.00%
No suggestions, I enjoyed the video for explanation it was much more helpful to gain information when the reading was hard.	1	3.33%
None	1	3.33%
none, i like everything about this course	1	3.33%
None. If it could be in person for discussions of the content itd be great, but understand that it's a summer course in a pandemic	1	3.33%
Perhaps more video assignments	1	3.33%
The 5 week time frame with philosophy readings can be hectic, offering the course in 7 weeks could be beneficial.	1	3.33%
The course was designed perfectly to fit into the limited time and with maximum benefit.	1	3.33%
The only thing i didn't love were that the slide were identical to her words and a LOT of quotes from the required readings- almost made the lectures irrelevant. It was a bit frustrating.	1	3.33%
The videos and podcasts were great. It broke up the reading, and were a valuable way for me to learn. I would prefer more content that way.	1	3.33%
No Response	1	3.33%

35) Please write any additional comments you may have below.

Response Text	Frequency	Response Percent

A very enjoyable, well presented subject. I learned more than usual.	1	3.33%
Again, just want to stress that Professor Sicilia was a highly effective teacher and I appreciated her explanations of things and how comfortable she was engaging with the class. Just because the material wasn't my bread and butter doesn't mean she wasn't great!	1	3.33%
Great class. I enjoyed answering the prompts because it challenged me and make really think about the reading.	1	3.33%
Honestly, I was a little intimidated when I signed up for this course. I had unnecessary assumptions like maybe the feminist teacher would be aggressive. However, the professor is so nice! She taught in a friendly way. She didn't impose her opinions on us. She spoke about the different arguments feminists have made without adding her opinion. That is such a difficult task to do, I think. I loved this course! I would take it again and encourage everyone I know to take it too. Thank you! :D	1	3.33%
I learned a lot and the instructor was very nice	1	3.33%
I like how this class provided a different perspective of feminism that isn't shown as much in the media.	1	3.33%
i really enjoyed this course	1	3.33%
I really enjoyed this course with you as the instructor, I retook this class and the second time around was a lot easier.	1	3.33%
I would just like to stress how informative, insightful, and accommodating Instructor Sicilia was! For the first time I felt as though I could reach out to an instructor without being concerned my request for an alternative format compatible with assistive devices would be an annoyance. I will be keeping my eyes open for other courses taught by her. Instructor Sicilia is truly one of the best instructors I have had at UA and/or any other college/university.	1	3.33%
Instructor Sicilia was kind, helpful, and informative. Her lectures are succinct; her assignment examples elucidating. Instructor Sicilia delivered a fruitful class.	1	3.33%

Overall a great and engaging course. I often found myself emotionally involved in the subject I was learning about and willing to passionately respond to it.	1	3.33%

Overall I enjoyed this course. It helped me think about a lot of things that I may have thought about before but more so in passing. I think that the quizzes don't necessarily demonstrate the best understanding of the content, because some of the content I was able to take away multiple understandings that were included in the multiple choice answers.	1	3.33%
Thank you for an excellent course!	1	3.33%
Thank you for everything! I am much better informed and excited to learn more on my own to expand on what I've learned in this class.	1	3.33%
thank you for making me think outside of the box and encourage me to challenge my own opinions and opinions of those around me!	1	3.33%
Thanks for a great final course! This is my last one before I get my degree!	1	3.33%
This was a really fun course, in which I gained a lot of information about feminism that I hadn't had before.	1	3.33%

28) What did you especially like about this course?

Response Text	Frequency	Response Percent
Annabella allows for extensive discussion over the subject matter and makes sure everyone understands.	1	2.63%
Everything, loved this class.	1	2.63%
fantastic and very accepting professor which made discussions feel very comfortable to participate in as she did not invalidate anyone's point	1	2.63%
How the material really made you think	1	2.63%
I enjoyed the discussions.	1	2.63%
I enjoyed the easy to understand deadlines.	1	2.63%
I liked having discussion every class and getting to hear everyone's personal stories and how this class applied to many people and how interesting all of the topics were.	1	2.63%
I liked how all of the students have the freedom to share their opinions and how such a respectful environment has been created by Anna-Bella	1	2.63%
I liked how we were taught about technologies that seem futuristic, but on a basic level are applicable to much of what we already have.	1	2.63%
I liked learning about memory enhancing pills and theories. It really made think that us humans can go to far lengths into enhancing our lifestyle.	1	2.63%
I liked that there was a new topic every unit/week. I never felt that I was just relearning the same information over and over like in other classes.	1	2.63%
I liked that this course allowed me to express what I thought about the subject matter, in a respectful discussion environment.	1	2.63%

I liked that this course had lecture material, but was really centered around discussion and sharing of ideas. It was nice to be involved in a class that put so much value on our individual opinions and ideas, instead of just being given a bunch of information that we have to remember.	1	2.63%
I liked that this course made me think critically about topics that I knew existed but never really had any stances on. In order to be successful in this class, it required you to form some sort of opinion on the topic discussed.	1	2.63%
I liked the discussions we had.	1	2.63%
I loved how in this course it was all real life things that could happen or that are happening to people on this earth	1	2.63%
I loved how kind and willing to help out my professor was	1	2.63%
I really enjoyed listening to the discussions.	1	2.63%
I really liked how the focus of the class was on the discussion and the material itself, not just on getting grades in the grade book. I also really liked how the material was presented in different ways and how organized the class was.	1	2.63%
I really liked the information ans it was really interesting and how well thought out the layout of the course was and how organized it was from week to week. Very easy to follow along.	1	2.63%
I really loved the material of the course. I really liked that we had a lot of discussions versus assignments or essays. I feel like I was able to express myself and my opinions without having to do a whole essay very other week.	1	2.63%
Loved the enhancement and memory units	1	2.63%
N/A	1	2.63%
The breakout discussions with the polling discussions	1	2.63%
The freedom to express our own thoughts. It???'s basically a debate class for the ethics of things. There is no right or wrong. So as long as you complete the assignments to fill it is easy. But the professor is really helpful as well.	1	2.63%
The good feedback and group work.	1	2.63%
the in class discussions	1	2.63%
The instructor responds to emails in a timely manner.	1	2.63%
The interaction between the student and professor in discussion	1	2.63%
the material was so interesting and relevant. I'm so glad I took this course.	1	2.63%
The professor	1	2.63%
The professor was incredibly involved in the learning process, which made the material easier to understand and was also really accessible if I had any questions.	1	2.63%
The questions we would discuss	1	2.63%
The teacher.	1	2.63%

The things I enjoyed about this course was not only the layout of course work as it was straight forward but, the course as a whole was super captivating!	1	2.63%
The topics were very interesting.	1	2.63%
This class let me express myself and actually discuss issues I cared about.	1	2.63%

29) What suggestions would you make to improve this course?

Response Text	Frequency	Response Percent
--	1	2.63%
Allow a little more time in breakout groups. I personally feel more comfortable talking with a smaller group and feel we can talk more.	1	2.63%
Change your participation to turning point or something that people can catch up on during these pandemic times.	1	2.63%
I do not have any suggestions as I truly feel that this course was ran beautifully.	1	2.63%
I do not think there is anything that needs to be improved. I really enjoyed this class, it was one of my favorites this semester.	1	2.63%
I don't really have any suggestions I loved all the topics and homework!	1	2.63%
I felt like the discussion questions presented to us each week were all very similar, just changed slightly to fit the current topic for the week. This made me slightly uninterested in writing them because I had a hard time answering basically the same question so many times. So I would recommend asking discussion questions that are more specific to the topic than a general question that can be applied to every topic that we learned about.	1	2.63%
I only wish other people had been willing to talk in class, because the discussions were always interesting	1	2.63%
I think the class is just fine the way it is.	1	2.63%
I wasn't allowed to see what questions I missed on my quizzes.	1	2.63%
I would suggest having more options for answers on the polls, such as partially agree or partially disagree to account for the opinions that exist not in the black and white realm of thinking.	1	2.63%
Involving more people	1	2.63%
maybe a different way of working in groups that isn't just breakout room discussion.	1	2.63%
Maybe move discussions to smaller groups during class. There are a certain few individuals that overpower others during class discussion and it gets annoying listening to certain people.	1	2.63%
More possible topics for the final paper.	1	2.63%

Other way for participation	1	2.63%
Possibly a little more time for topics	1	2.63%
The only change I can think to make is to further divide the D2L content tab into individual weeks, although that wasn't a huge problem for me.	1	2.63%
the readings were really lengthy at times and with 3 readings sometimes a week it was hard to keep up	1	2.63%
There's nothing I can think of to improve the course.	1	2.63%
This course is really great and I would not change anything about it.	1	2.63%

I loved this class!	1	2.63%
I really enjoyed this class.	1	2.63%
I really love the structure of this course.	1	2.63%
I think it was great how understanding she was and how she consistently reminded us that if we needed anything from her, such as help or an extension that she was there to assist. Some of my other professors feel unapproachable, but I was never worried about contacting her if I needed something.	1	2.63%
I thought Anna-Bella did a great job of respecting everyone's opinions and keeping the "debates" about the material and not our personal lives, which I was worried about.	1	2.63%
I would just like to thank Professor Anna-Bella as I really enjoyed taking this course not only for the material that I got to engage with but, for her as an individual! You are truly amazing!	1	2.63%
it was a very enjoyable and interactive course	1	2.63%

Really interesting subject matter, it got me thinking a lot about things that I had never paid any mind to in the past!	1	2.63%
Thank you for this class. I was really bad about going to lectures but I would always catch up in the powerpoints and recorded lectures and really really enjoyed this class. Thank you!	1	2.63%
Thank you so much for such a great semester. You are such a caring professor and it really helped me and my fellow students keep our heads up in such a strange time. Your kindness can truly be felt even through zoom, thank you so much for a great semester.	1	2.63%

31) Given the uncertainties of the pandemic situation, what factors supported or hindered your learning in this course?

Response Text	Frequency	Response Percent
Being fully online, this class would be so much more interesting and better if we were able to discuss and debate the topics in person	1	2.63%
Communications in the class were uncertain at times, but were always properly addressed in a timely manner.	1	2.63%
Factors hindered me from being able to go to class because I had a limited time on using the WiFi at my house.	1	2.63%
Given the uncertainties, I was still strongly supported and helped throughout this class, it was more of a struggle online but my professor made it go so much smoother	1	2.63%
I appreciated the emails to keep us up to date on when assignments and things were due, kept it clear for us to understand.	1	2.63%
I don't like having discussions and lessons over zoom, it should either be completely asynchronous or at least the lessons should be.	1	2.63%

I felt very supported in this class. This professor was very understanding of circumstances and allowed for late work and extensions, which helped me immensely to succeed in this course.	1	2.63%
I like how the due dates were clear and did not change.	1	2.63%
I prefer face-to-face learning and I feel as though I retain more information that way.	1	2.63%
I really appreciated how the material was given in multiple different formats so I could find the one that works best for me. I also really liked having Mondays as built-in time to read and watch the lectures so I wouldn't have to worry about finding time to work on the class elsewhere.	1	2.63%
I was able to learn well in the course because the instructor provided good feedback for assignments and she explained concepts clearly.	1	2.63%
I was having trouble keeping up with the assignments	1	2.63%
It was difficult trying to just focus by trying to almost teach yourself while reading and watching lectures, not getting to discuss right then and there and having to wait to discuss.	1	2.63%
It was my own fault but participation!	1	2.63%
Just not being able To be in class	1	2.63%
N/A	3	7.89%
NA	1	2.63%
No factors influenced me. Adapt and overcome.	1	2.63%
no one ever wants to talk during breakout sessions as the format can be quite awkward at times. I think break out sessions are usually more unproductive than group discussions	1	2.63%
Nothing hindered, Anna-Bella taught a wonderful class	1	2.63%
Sometimes it was difficult to focus on the lecture, which would hinder my ability to learn about the topic or participate in discussion.	1	2.63%
Support : How organized Anna-Bella was Hindered : nothing	1	2.63%
The consistent communication through emails and the beginning of class updates were super helpful. I appreciated the emails that we would get telling us our work was graded or just giving a general reminder. It showed that she would really take the time to put effort into communication and being a great professor.	1	2.63%
The inability to foster group discussions in breakout rooms is something that is hard to discuss, and kind of a nuisance I just never knew how to get around it.	1	2.63%
The material was consistent with the dates and that made it easy to remember when things were due.	1	2.63%
The pandemic has not hindered my learning much in this course	1	2.63%
the pre discussion lecture videos as well as zoom discussions	1	2.63%
The professor has weekly Zoom meetings to discuss the topics in class, which was helpful. Also, the professor was easily accessible by email which was also helpful given we didn't have the opportunity to ask questions during an in-person class or in-person office hours.	1	2.63%

This course by far was one that nailed the online format, when I state that I truly mean that not only with the zoom meetings but with the course work everything was straight forward and easily followable!	1	2.63%
This is my one course I didn't have an issue with learning the material. The limited online lecture time and discussions were a great way to fully learn concepts because the discussions are more engaging. Having the classes recorded and posted if I wasn't able to attend was also helpful for catching up on course material.	1	2.63%
We had both synchronous and asynchronous learning, also the option for people to email Anna-Bella if they did not feel comfortable participating	1	2.63%
We met twice a week and she understood we are all going through hard times.	1	2.63%
While I love this class and it was great! I think it would have been easier to be in person so we could talk about these issues face to face. Thought it doesn't effect the class.	1	2.63%

48) What did you especially like about this course?

Response Text	Frequency	Response Percent
I like the discussions, but they need to be shorter responses	1	16.67%
I liked how the class was very organized and how the professor kept us updated on all the due dates and office hour opportunities.	1	16.67%

I loved!! the material all the readings were very interesting to me and i made a point to analyze and annotate them making the points more insightful	1	16.67%
I really enjoyed the lectures, they were extremely helpful and focused on the important points within our readings.	1	16.67%
the teacher was extremely understanding and always helpful	1	16.67%
The topics were rather interesting.	1	16.67%
No Response	0	0.00%

49) What suggestions would you make to improve this course?

Response Text	Frequency	Response Percent
i do not have any	1	16.67%
i think it would be cool to have some zoom discussions ik teachers struggle with this often cause not everyone goes but these topics are so rich and really require debate and thought. I do feel like the weekly posts helped with engagement but face to face interaction and discussion is so much better	1	16.67%
maybe have a note taker for the class for those with DRC accommodations	1	16.67%
Maybe having 2 attempts for the exams would be helpful because since it was such a short and quick course, it would've been more fair for us.	1	16.67%
N/A	1	16.67%
The test questions are sometimes about very specific sentences in the reading and can be overly tricky.	1	16.67%
No Response	0	0.00%

50) Please write any additional comments you may have below.

Response Text	Frequency	Response Percent
I loved the readings and topics we discussed, they were so interesting and relevant to what life is going to be like in the future.	1	16.67%
i really enjoyed this class	1	16.67%
Loved your class and your lectures were so precise and gave very conclusive analysis/summary of the reading. Overall really enjoyed your course would recommend	1	16.67%

Thank you so much for setting up this course. You did a really good job	1	16.67%
No Response	1	16.67%

51) Given the uncertainties of the pandemic situation, what factors supported or hindered your learning in this course?

Response Text	Frequency	Response Percent
again like i said previously i think more on the spot interaction would be valuable with this material	1	16.67%
I do better meeting the teacher to talk in person	1	16.67%
My grandmother unfortunately passed away during the semester so that had a big impact on me.	1	16.67%
not much since it was a winter course and was online regardless	1	16.67%
The professor was quick to respond to emails and was always readily available.	1	16.67%
The way this course was structured was really helpful - there was enough time to complete the assignments and there wasn't a heavy amount of reading to get through. It was concise and effective, which I really appreciate during this time.	1	16.67%

28) What did you especially like about this course?

Response Text	Frequency	Response Percent
discussion	1	2.13%
I enjoyed the discussion	1	2.13%
I enjoyed the diversity of materials. It maintained my interest and the class remained interesting	1	2.13%
I enjoyed the overall topics we explored throughout the course. Talking about morality is tricky but I enjoyed the content.	1	2.13%
I especially enjoyed the controversial conversations and how much my perspective was opened and challenged.	1	2.13%
I learned and thought of things I wouldn't have.	1	2.13%
I like how even though there were different viewpoints and opinions expressed in this class, it was always an inviting conversation. Everyone's voice was heard and no one was ever discredited for their ideas	1	2.13%
I like how it had a clear and consistent schedule/structure and the class discussions. I liked having polls in the start of class to loosely guide , stimulate and set up the class discussion but that afterwards it was very open and inviting.	1	2.13%
I like how we have a discussion post for every discussion e have in order to further discuss our ideas.	1	2.13%
I liked how the course was online and the topics that we discussed were thoroughly analyzed.	1	2.13%
I liked how the lessons we learned took place in real life settings and I liked how the lessons could apply into real life settings as well.	1	2.13%

I liked how the schedule was very predictable. I knew exactly what was expected from me each week and was able to easily stay on top of the coursework. The polls were also fun, they were hard to answer with simply yes or no answer but I thought it was good that we were forced to take a stance on each subject and then were given the opportunity to explain our point of view.	1	2.13%
I liked reading the Lecture Powerpoints because they really helped me make sense of the readings.	1	2.13%
I liked that I was able to talk about my thoughts and perceptions about different topics.	1	2.13%
I liked that we had one day of lecture and one day of zoom discussions.	1	2.13%
I liked that we were encouraged to participate in the discussion once a week in three different ways. I tend to get anxiety when I have to talk in front of the class especially over Zoom, so I appreciated that we could get participation credit for participating in the zoom chat discussion.	1	2.13%
I liked the discussion posts and the setup of the class as on our own one day a week and then a discussion format another day of the week.	1	2.13%
I liked the discussions and how everyone had the opportunity to express their opinions.	1	2.13%
I liked the readings and concepts that we read about and discussed in this class because they were so interesting to learn about	1	2.13%
I liked the readings and discussions.	1	2.13%
I love the weekly discussions	1	2.13%
I loved the entirety of the material covered from beginning to end of this course. The subject matter was incredibly interesting to me and the instructor was very kind and helpful. I also liked the discussions that we had throughout the class time as they allowed the students to understand differing perspectives from their peers on the topic at hand. The course was also very well organized.	1	2.13%
I loved the subjects we learned about and personally thought this class was very interesting. I also liked having short quizzes every week instead of a few very lengthy tests, it made it easier to learn as we went and make sure we were understanding everything.	1	2.13%
I loved this course! I really liked the class discussions we had. They really made me find evidence and examples to support my thoughts.	1	2.13%
I really enjoyed the topics that we as students learned during the semester and how we were able to participate with one another providing our own opinions and thoughts without being discouraged by them.	1	2.13%
I think this topic is fascinating!	1	2.13%
I thought that the course material was interesting	1	2.13%
I was able to get help when I did not understand something during class. It was also. nice to have help from peers during class.	1	2.13%

It was super interesting! The assignments and readings that we had were engaging and thought provoking.	1	2.13%
it was very interesting and raised many moral and ethical questions regarding science and technology that I had never considered	1	2.13%
Not only is the subject matter incredibly interesting, but the readings chosen were all highly interesting.	1	2.13%
nothing	1	2.13%
Our professor was amazing	1	2.13%
Prof. Sicilia is extremely knowledgeable and knows how to make the content easy and engaging	1	2.13%
seeing multiple perspectives on neuroethics and understand the feelings of both.	1	2.13%
Showing up once a week and learning ourselves Tuesdays.	1	2.13%
The ability to discuss topics with a group	1	2.13%
The content and professor are really awesome	1	2.13%
The discussions were lively and active, on important topics.	1	2.13%
The freedom inside each topic. How we could really explore so many ethical topics and say our opinions.	1	2.13%
The instructor has well organized this course.	1	2.13%
The readings were well organized, and we were encouraged to not only apply what we learned in the readings, but form our own point of view on the subjects we were learning about by writing discussion posts and responding to other student's discussion posts, allowing us to engage beyond simply learning.	1	2.13%
The teacher was very understanding and gave room for everyone's viewpoints	1	2.13%
The topics	1	2.13%
The way they set the course up made the zoom class engaging	1	2.13%
This course was insightful and thoughtful!! The professor was also really nice and understanding.	1	2.13%
What I liked about this class is that it was well taught	1	2.13%

29) What suggestions would you make to improve this course?

Response Text	Frequency	Response Percent
200 words is too much for a meaningful discussion reply	1	2.13%
Besides non-remote, nothing.	1	2.13%
Continued updates on our participation would be helpful.	1	2.13%
Go over the quizzes more in class.	1	2.13%
Have the course meet on regular basis, meaning if the class on Tuesdays and Thursdays, then have both of them on Zoom instead of one being fully online and another one being fully on Zoom.	1	2.13%

Having class twice a week instead of just once to increase motivation of students.	1	2.13%
Having the quiz and discussion due on the same day could make it easier to meet deadlines	1	2.13%
I am not sure. I know I'm sorry, that's not helpful.	1	2.13%
I didn't really like how we didn't get any feedback on discussion posts but then had to submit them as part of the test grade. I would have liked a couple pointers on how I could possibly improve the post before the exam.	1	2.13%
I do not have any suggestions.	1	2.13%
I don't have any specific suggestions, I loved the class!	1	2.13%
I don't think I have any suggestions	1	2.13%
I feel like there's so much to say and debate about, so maybe encouraging more discussion on discussion posts could be helpful? I'm not sure how that would happen exactly, but I feel like there was a lot of room to host conversations within there.	1	2.13%
I liked the quizzes and video lectures, but I suggest keeping the adjustment we made of overviewing the quiz answers in the lecture the next day to achieve a greater understanding.	1	2.13%
I think it would be cool to have in person for discussions.	1	2.13%
I think meeting on Zoom and discussing the lectures more would have been a bit helpful.	1	2.13%
I think this course was ran efficiently. I would not change anything.	1	2.13%
I would encourage the instructor to be more strict about her class.	1	2.13%
I would improve meeting more than once in person because the readings can be difficult to understand at times	1	2.13%
I would like to have an opportunity to debate out thoughts, even if we agree with our class mates point, it would be a good exercise to find out what are some arguments people could give on them.	1	2.13%
I would maybe have a few more assignments other than just the discussion posts and quizzes.	1	2.13%
I would suggest more opportunities for course credits.	1	2.13%
I would want the lectures to be a little bit shorter and more straight to the point.	1	2.13%
I'm not sure I really enjoyed how the class was set up. It would've been nice if everyone would have their camera on during the discussion, but that's out of the professor's hands in the zoom format.	1	2.13%
Improvement of the discussion post topics. Most of the time, either one was way easier to write a discussion post to than the other, or one was more interesting. Obviously this is subjective to each person in the course, but I found that for most discussion post, many students would reply to the same question.	1	2.13%
In person	1	2.13%

Maybe a group assignment? Could help learn different opinions from other people in class.	1	2.13%
Maybe more detailed lecture videos.	1	2.13%
More focused group discussion	1	2.13%
More group work	1	2.13%
N/A	4	8.51%

no improvements needed	1	2.13%
none	1	2.13%
None, this was my favorite class this semester.	1	2.13%
nothing	1	2.13%
The professor shouldn't be afraid to share her own personal views or say things that may reveal her own stance on the issue. If the professor isn't willing to stand on their opinions, then others feel that they should also hide their true opinions. It was sometimes hard to get people to talk in the breakout rooms. The professor could travel in between all the breakout rooms	1	2.13%
This improvement was already made midway through the semester, but when we went into breakout roos, having the questions we were meant to discussion sent into the chat before hand	1	2.13%
To let us know how we are doing on participation points more often.	1	2.13%
Try to make the course a bit more organized and easier to understand, sometimes I felt like it was hard to understand because of the types of vocabulary being used. I would also like to mention the instances of work being due during reading days that should have been subjected to time off for students.	1	2.13%
Was a very well-run course. I enjoyed it!	1	2.13%
Working with others for a project would be really fun!	1	2.13%

I found the ideas presented to our class to be effective in allowing ourselves to think about the social world further.	1	2.13%
I loved this class! It really expanded my thinking and I always felt very comfortable with sharing my opinion.	1	2.13%
I really liked the class	1	2.13%
I think having the lecture separate from the zoom class was a good choice it made coming to the zoom class fun because we could all discuss our ideas together. I hope you continue teaching because you made the class interesting, and I looked forward to going every Thursday.	1	2.13%
I would encourage the instructor to be more strict about her class.	1	2.13%
interesting subject matter. very fun	1	2.13%

Overall, the class was very enjoyable and the topics were very interesting but maybe some of the topics were a bit confusing and should have more clarity and concise understandings.	1	2.13%
Overall, this has been my favorite course this year, from subject matter, to mode of instruction to instructor. Thank you to all who made it happen!	1	2.13%
Professor Sicilia was great at teaching this subject. She created a nice atmosphere on Zoom when we were discussing controversial topics.	1	2.13%
Thank you for a great semester!	1	2.13%
The email reminders and announcements on D2L helped me stay on track. It would be helpful to have more short, condensed readings. Time was hard to manage, as the difficulty of the material influenced how much time I spent on it	1	2.13%
This is one of my favorite classes I've taken so far. Anna-Bella is a great instructor, and I'd take more classes with her if I could.	1	2.13%

This was a really interesting course! Although I won't be doing anything with philosophy and this course was really only supposed to fulfill my ethics requirement I came out of it with some really interesting things to talk about. I appreciated being able to hear everyone's opinions every week.	1	2.13%

31) Given the uncertainties of the pandemic situation, what factors supported or hindered your learning in this course?

Response Text	Frequency	Response Percent
Constant communication really helped. Emails, announcements, and in class reminders all prevented me from falling too far behind	1	2.13%
Due dates were very clear which helped keep me organized.	1	2.13%
Factors that helped me would be zoom	1	2.13%
Group discussion did not work well in zoom format	1	2.13%
Having a nice in-class discussion made zoom class exciting and more bearable to go to.	1	2.13%
Having class once a week honestly helped my schedule a lot. It made it a lot easier to do the readings and lectures on my own time as long as I got it done before discussion.	1	2.13%
Having classes online was definitely difficult for me but obviously that was unavoidable. I think the D2L setup for this class helped me a lot, it was easy to navigate and all the dates and readings for the week were clear to me.	1	2.13%
Having the weekly required zoom discussions helped me interpret the readings a lot easier	1	2.13%
Honestly the whole online thing is terrible, but this class handled being online pretty well	1	2.13%
I can't be there to have my classes.	1	2.13%
I did not feel hindered in any way in this class.	1	2.13%
I don't think the pandemic hindered my learning in this course	1	2.13%
I really liked that there was one day dedicated to reading the material on your own time, and another one dedicated to discussing it in class. This was really helpful, as I have had classes that did not grant time to reading the material and by doing so in class time was very helpful for me. I also appreciate the various ways of gaining participation points, whether by participating in class or through email. Thank you!	1	2.13%
I think meeting on zoom really helped support my learning along with the weekly discussion board postings.	1	2.13%
I think the pandemic just makes it hard to stay focused for the whole semester. Luckily, I found the material in this class to be engaging so I stayed engaged throughout the semester. I had other classes where that was not the case. Overall I think kids just need more reminders and at time more patience and understanding that this is a hard time for all of us. Teachers included.	1	2.13%

I was impacted badly by the pandemic causing me to have to quit my job because I felt like the workload of the school was very hard, and even after that I felt like not many of the professors or even the school was lenient enough with the horrible learning experience through online. So I found it very difficult to pay for my classes and to continue learning hard material.	1	2.13%
I wish I was able to attend this course in person because I lost a lot of motivation.	1	2.13%
I've enjoyed learning online, no complaints from me.	1	2.13%

The ability to come to class and have options to earn participation.	1	2.13%
The ability to submit work for assignments long before the due dates	1	2.13%
The best as possible was done	1	2.13%
The biggest thing that hindered my learning in this course was the motivation to do all the readings because of how long they were	1	2.13%
The course worked well online, and was not a problem despite COVID.	1	2.13%
the days clump into one and missing assignments because of other worries	1	2.13%
The discussion and talking about what we read up on	1	2.13%
The fact that discussions were not in person	1	2.13%
The fact that this class was online helped a ton!	1	2.13%
The factors that supported my learning in this course was attending classes on Thursdays.	1	2.13%
the full online participation was difficult to keep up with.	1	2.13%
The video lectures helped a lot. It was like listening to a lecture from a class room and helped me understand the topics better.	1	2.13%
The zoom format obviously made discussions about these topics a bit more difficult, but as a whole, it wasn't as bad as the vast majority of classes I've taken.	1	2.13%

What hindered not so much learning but discussion was addressed mid way through the semester, and that was just having the discussion questions for the breakout rooms being sent in the announcement of zoom made it hard for us to remember what was being asked Once this was addressed and the question was sent in the chat beforehand it definitely helped the breakout room discussions be more productive	1	2.13%

33) What did you especially like about this course?

Response Text	Frequency	Response Percent
.	1	5.00%
Anna-Bella gave very prompt and constructive feedback. The materials were relevant and I appreciate the intentional use of terminology (non-male, etc.) throughout lectures.	1	5.00%
Every reading was both engaging and informative, which is crucial for this shorter summer format. The lectures were clear and concise, and reviewed the readings, which aided my understanding. The quizzes were very straightforward and easy - I was worried about the time limit at the start of the class but it was absolutely no problem at all. Anna-Bella was highly responsive over email and her replies were helpful. She was open to new ideas and is hands-down the fastest grader I've ever had.	1	5.00%
How engaging and thought provoking it was.	1	5.00%
I enjoy learning about different topics from our personal point of view and inputting that information with what is discussed during a certain week. The instructor is very friendly always sending out mass email reminders. It's clear she wants success for all of her students. Extremely grateful for instructors like Anna-Bella.	1	5.00%
I enjoyed being introduced to some feminist authors I had not read before.	1	5.00%
I enjoyed how well organized this course was. I feel that the workload/expectations were appropriate given the duration of this course, and the schedule outlined at the beginning of this course allowed me to plan for assignments.	1	5.00%
I liked being introduced to the history of feminism and its evolution throughout the years. I enjoyed learning about Kimberle Crenshaw and more modern aspects of feminism and the topic of intersectionality. Learned a lot for a 5 week course.	1	5.00%
I liked how the material was easy to navigate and extra resources were readily available.	1	5.00%
I liked the content. I learned a lot regarding topics I did not know much about.	1	5.00%

34) What suggestions would you make to improve this course?

Response Text	Frequency	Response Percent
.	1	5.00%
I don't really have any suggestions! I think the scope of feminism that she provided ("non-male people") could have been tweaked a little further, but I think it was an excellent starting point, and the whole point of the class is that everyone's definition of feminism differs - plus, she fine-tuned that scope over the course of the class based on ideas from students. This really felt like a collaborative learning environment in that way. I thoroughly enjoyed the class.	1	5.00%
I have no suggestions, it was a well organized class	1	5.00%
I would not make any improvements. F St	1	5.00%
In the lectures, if there is information on the extreme bottom right of the slide, it's cut off by Anna-Bella's video feed.	1	5.00%
Maybe an addition aspect that includes how to apply these ideas to educate others on how to be more feminist or practices that can increase social awareness to oppression.	1	5.00%

Nothing at all.	1	5.00%
Nothing it was great for a 5 week course.	1	5.00%
The only suggestion I would make is more clearly identifying which lectures are paired with which readings/learning materials for the week.	1	5.00%
The prerecorded lectures were fine; it was a little difficult to hear sometimes, even when turned all the way up- I beleive it was just the placement of the microphone, but overall, I could make it through.	1	5.00%
The teacher didnt really lecture she just read her powerpoints in video form.	1	5.00%
There was an emphasis on the terms male vs non-male and at some points it seemed like the man was made out to be the enemy which I thought was a bit counterintuitive.	1	5.00%

You can't gloss over rape. If you are going to bring that up within the course, there should be a warning before you choose this class. It gets brought up multiple times but never addressed. It's bringing up a lot of things, but I don't feel comfortable sharing with the class. Yet I also don't feel like I could talk about it when I did want to say something. Idk this was just a very mentally challenging course	1	5.00%

36) Given the uncertainties of the pandemic situation, what factors supported or hindered your learning in this course?

Response Text	Frequency	Response Percent
.	1	5.00%

Anna-Bella was willing to give extensions on request, which is hugely important during this time. Her grading turnaround was very fast, which is great because waiting for grades in an asynchronous situation can be a nightmare. She responded to emails quickly and her responses were always clear and relevant, which is the most helpful thing a teacher can do in any situation but especially in this one. You know that she really took the time to read and understand your email and that means a lot.	1	5.00%
As earlier stated, having the schedule of assignments ahead of time was extremely helpful in planning.	1	5.00%
Being an online course made the class convenient.	1	5.00%
glad it was online. The lectures were just reading of the PDF files.	1	5.00%
I do not believe anything in particular hindered my performance in this class.	1	5.00%
I wish we could have had discussions in person, but the instructor still made the course feel discussion-based.	1	5.00%
I would have appreciated a synchronous discussion aspect to the course so that I could further hear my classmates perspectives.	1	5.00%
I'm doing distance learning anyway, so finally being rid of Covid would not have changed anything for me.	1	5.00%
It was great that I was able to rewatch the lectures if anything was unclear	1	5.00%

33) What did you especially like about this course?

Response Text	Frequency	Response Percent
All of the assignments were easy to understand	1	1.85%
All video notes were given to use through PowerPoint	1	1.85%
Everything was great.	1	1.85%

how clear instructions are and she described concepts very well	1	1.85%
How clear the goals and assignments were.	1	1.85%
How it was very easy to find everything.	1	1.85%
I appreciated the teachers effective and timely communications and they're ability to be available to speak with students. I also liked that the lectures and readings were broken down into separate sections making the content digestible.	1	1.85%
I appreciated the weekly emails, I think they're a great way to keep students on track with a semi-asynchronous course like this one.	1	1.85%
I enjoyed the opportunity I got to interact with my classmates through discussion posts. We were able to share our views on certain theories and see how others view the same theory. It was interesting to interact with classmates and learning different approaches to certain topics.	1	1.85%
I enjoyed the subject matter of Philosophy	1	1.85%
I especially liked that I was able to write one essay and four discussion posts that I wanted out of six short essays and six discussion posts. By being able to decide on a topic for discussion, I was able to express my opinion confidently based on what I understood.	1	1.85%
I got to learn about philosophy when I have never learned a single thing about it before taking this class.	1	1.85%
I like how there was only 4 discussion posts required. I think it allowed me to focus all my efforts in a couple topics and really understand them, rather than doing the bare minimum just to get the grade. I also liked how short the quizzes were but also how they were questions that you would only know if you watched the videos.	1	1.85%
I liked how streamlined and consistent it was. It was very forward and didn't put too much or too little on the students.	1	1.85%
i liked how the grading was done exactly by the rubric.	1	1.85%
I liked that it was really flexible with when I could do the big assignments which helped me structure it around some of my other courses better.	1	1.85%

I liked that we got to debate with other students on the discussion posts.	1	1.85%
I liked the fact that we received grades and feedback in a timely fashion. I have other courses right now, that I still haven't received grades for assignments completed 2 weeks ago. I was also interested in the content of this course and it didn't disappoint	1	1.85%
I liked the fast paced curriculum and how our teacher explained all these philisophical theories in a way that was easy to understand	1	1.85%
I liked the simplicity of the course. There were three lectures per each week. I knew what to expect every week and it helped transfer my knowledge week from week.	1	1.85%
I liked the structure. It was very straight forward and it wasn't overwhelming.	1	1.85%
I liked the subject matter.	1	1.85%
I liked the topics we discussed in the course as well as the easy to find lectures	1	1.85%
I loved nearly everything about this class but I enjoyed that our teacher provided direct feedback and grades extremely fast. Along with that I enjoyed how the class was taught, lecture videos allowed me to pause and take notes without the stress of missing anything!	1	1.85%
I loved the instructor's communication, the weekly reminders and what is coming up next. I also appreciated the tone of her communication as well. I liked that she recorded her own video lectures. I also very much appreciated how organized the course was, and that we were given options for what assignments to submit.	1	1.85%
I loved the readings and the topics we talked about.	1	1.85%
I really liked how clear the expectations and due dates were. It helped to be able to plan ahead and know exactly what is expected for each assignment. Additionally, the material is the type of thing that can easily become dry, but the instructor did a great job of keeping it accessible and interesting.	1	1.85%
I really liked the lecture videos. They were really interesting and concise to be able to properly understand the concepts.	1	1.85%
It was a good interesting class	1	1.85%
It was clear and easy to follow what was due for each part. The concepts were the difficult part, not the course work.	1	1.85%

This course was out of my comfort zone as the concept requires very abstract thinking. It's been challenging, however, I'm glad that I took the course.	1	1.85%
This is the most organized and well-fun course I have ever taken. It was really nice and refreshing to know exactly what needed to be done and where to find all of my materials. Getting my grades back quickly was fantastic and unprecedented by my other classes.	1	1.85%

34) What suggestions would you make to improve this course?

Response Text	Frequency	Response Percent
a day to catch up on missing assignments	1	1.85%
Add captioning to the lectures.	1	1.85%
An extra source to help understand some of the more challenging concepts would be helpful.	1	1.85%
be more friendly and the instructor should answer the question directly rather than referring to class content. The student asks the question because they couldn't find the answer in class content!!!	1	1.85%
Better explanations of the course material. Provide more structured learning material besides PDF's and brief videos that vaguely explain the reading. Better explanation of the writing assignments and critique on what I did wrong and what I didn't write in the paper. If i am supposed to hold the readers hand in a paper, If I failed that paper the instructor should explain it to me as if they are holding my hand as well.	1	1.85%

Certain quiz questions pertaining to more than one right answer seemed to have one answer that could be or could not be chosen and still be correct.	1	1.85%
Change it to in person, decrease the readings, laziest class ever	1	1.85%
I believe the course had an organized layout that provided all the content needed to understand and complete assignments. I was able to learn and understand the content of this course clearly and easily.	1	1.85%
I can not think of anything! I really enjoyed this course!	1	1.85%
I love the faced paced course and understand we have a limited amount of time but I would give the students more explanation or time to complete the final paper. Or maybe even student examples that have a different prompt!	1	1.85%
I think this course overall was very fun and gave me more knowledge about philosophy	1	1.85%
I was satisfied.	1	1.85%
I would either have more emphasis on the discussion posts or less emphasis on them. As they stand now there isn't any real substantial discussion. This seems hard to do in an online setting in general.	1	1.85%
i would have like to know what i got wrong on quizzes so i could learn from my mistakes.	1	1.85%
I would personally like a little more feedback on the assignments, but this is a personal preference, and as this is not a writing course it's understandable not to have too much feedback of that kind on the essays.	1	1.85%
I would recommend having the discussion posts due throughout the semester instead of all at once.	1	1.85%
If it was able to be taught in person it would be much better.	1	1.85%
It started way too fast. I think there should've been some leniency on the first quiz because it's hard to get an assignment done on wednesday of the first week of the class in the middle of the semester.	1	1.85%
maybe a little bit clearer on how each theory works but overall the class was structured great	1	1.85%
Maybe a little more leeway as far as points for assignments. Up to this point, I have 100%s on all my assignments, but the final paper is still the difference between 2 letter grades. In my opinion, it doesn't leave much room for mistakes	1	1.85%
Maybe add some opportunity to show the research of what can be found on our own.	1	1.85%
Maybe include outside videos that talk about the content. That way students can digest the information through different outlets and create a well-rounded point of view.	1	1.85%
More interaction with students and not so reading heavy	1	1.85%

More opportunities to interact with my classmates. Opportunities to ask questions about the lectures - if I could somehow pause the video and ask a question at a specific time stamp, and start a conversation, that would be awesome!	1	1.85%
Multiple prompts for each short paper each week would be nice.	1	1.85%
My only suggestion would be to have a clear explanation of what the quizzes consist of would be helpful (for the first quiz I didn't know what to expect)	1	1.85%

Not let quizzes weigh so heavy	1	1.85%
Not much would be needed to improve this class because it is clearly organized, taught, and overall great. The only thing may be to encourage office hours and make posts reminding people of them!	1	1.85%
Not sure. Maybe some element to make the presentations more engaging. I read and took notes on all of them but sometimes found it difficult to get through. I did fully understand each concept when I finished.	1	1.85%
Nothing. Lectures and assignments were great	1	1.85%
one extra credit opportunity	1	1.85%
Quizzes should tell the students what questions were wrong to learn from mistakes.	1	1.85%
Quizzes were sometimes hard to find the answers to even after reading	1	1.85%
Readings were informative but the lectures made sure I understood the readings	1	1.85%
The quizzes asked questions about things that were not in the readings or lecture. As someone who has never taken a philosophy class (a gen ed I might add), most quizzes I could not even fully understand what the question was asking me. I wish that the questions were a bit easier to understand.	1	1.85%
The Wednesday comprehension quiz consists of six multi-choice questions and true false questions, and it is difficult to get good scores in the quiz because the score is greatly reduced every time one is wrong. Furthermore, the quiz accounts for 36 percent of the total grade, so it accounts for a large portion of the grade. Also, the difficulty of the quiz is not easy, so it would be better to adjust the difficulty or increase the problem.	1	1.85%

I enjoyed this class for the content and consistent approach to each topic. I also came into it without a clear idea of what to expect, which was helpful to navigate concepts that took longer to understand than I might have originally expected.	1	1.85%
I liked the class, but it was a bit difficult having no other experience with philosophy beforehand. I was excited to learn about the topics in the class, but they weren't explained in terms I could understand which made learning a bit harder.	1	1.85%
I really enjoyed the class, it broadened my knowledge on moral philosophy and I want to learn more about it now.	1	1.85%
I want to thank the teacher for taking the time to connect and evaluate the content with me that made it more engaging and helped me to grasp some concepts I struggled with.	1	1.85%

36) Given the uncertainties of the pandemic situation, what factors supported or hindered your learning in this course?

Although I had to take classes online due to the pandemic but I realized that online classes were also okay, because I could concentrate the course really well.	1	1.85%
Anna-Bella was easy to communicate with and wanted everyone to succeed, so she worked well with everyone	1	1.85%
Considering that this course was fully available online, it was easy to access and complete assignments on my own timing. The content of this course was accessible to me throughout the course and I had enough time to complete all of my assignments.	1	1.85%
everything online and clearly outlined supported my learning	1	1.85%
Flexibility for sure - the ability to work ahead was crucial to my success.	1	1.85%
Having the course work available to work on at any point in the semester (get ahead or delay discussion posts) helped because it was more flexible so if there was a week where something unexpected happened you wouldn't fall behind.	1	1.85%
I did get Covid so it was hard to keep up, but it was not the end of the world for me.	1	1.85%
I learned fine in this class.	1	1.85%

I liked how this course was online and I was still able to successfully learn and complete the course.	1	1.85%

I would also like to thank you for setting up the discussion post the way you did in regards to the final cut-off date. As I am a completely online student some courses are very rigid in their course timeline. A little flexibility was much appreciated especially at this time of year and given the circumstance. The course being entirely online was obviously nice. I felt comfortable throughout the entirety of the course.	1	1.85%
The course instructor made it very clear that she cared about our well being and if we had a personal issue that she would work with us. She was one of the few faculty members that I felt safe talking to even if I never had the chance or even met her in person.	1	1.85%
The fact that it was online made it easy to stay safe	1	1.85%
The flexibility helped, with sick people in the family and other issues sometimes made it somehow difficult to focus on deadlines. Philosophy seems to me that needs time to read, reflect, read again, and it becomes harder with the distraction of the pandemia. Thank you for your work on the class!	1	1.85%
The flexible and asynchronous nature of this class was really helpful during these times.	1	1.85%

The organization of this class helped my learning during this course. It made me less likely to cram.	1	1.85%
The professor's lack of interest to help clarify the material in a introduction class for philosophy.	1	1.85%
This class supported my learning so much. I was able to work at my own speed which aided in my success. Along with that, all of our lectures are prerecorded allowing me to take notes throughout them and rewatch them if needed. Our professor was very understanding of students lives and encouraged communication if we were stressed or needed help which was very nice and aided in my success.	1	1.85%
This course was not really affected by the pandemic	1	1.85%
With the discussion posts we had to form our own objection. I liked this as it made me engage in the material in a very critical way that ensured I understood it.	1	1.85%

33) What did you especially like about this course?

Response Text	Frequency	Response Percent
Anna-Bella is an extremely competent lecturer. I really appreciated the way that she continuously signposted during her lectures, used helpful symbology and iconography to help us grasp concepts, and frequently referenced earlier lecture material to help us remember what we have already learned and relate the old with the new. By drawing comparisons between old and new concepts, it deepened my understanding of both the old and new concepts.	1	6.67%
At first, I thought I was not going to like the class. But the course work and the reading we had created a newfound interest in philosophy	1	6.67%
I especially enjoyed the lectures and how they tied to our readings and built upon what we were learning. I think that this course was very well organized.	1	6.67%
I like how much feedback I got on assignments so that I was able to understand why I didn't get all the points I wanted.	1	6.67%

I really liked that Anna-Bella had given everyone the same chance to redo an essay, as well as take the time to explain to us concepts that could have been challenging. She allowed us to set up Zoom meetings and gave us feedback and explanations for a number of concepts.	1	6.67%
Liked the content, and the way it would present a theory, a threat and a new theory to respond to the threat.	1	6.67%
The instructor kept us up to date on all the projects. Also, gave great feedback on our assignments.	1	6.67%

34) What suggestions would you make to improve this course?

Response Text	Frequency	Response Percent

I can't really think of any improvements. The course is structured well, and it allows for things to be done in a timely manner. The lectures were well thought out and informative and the assignments and quizzes helped cement all the things we had been taught.	1	6.67%
I think live lectures and discussions might help. I really appreciate the opportunity to use office hours but I think actual live class versus prerecorded ones might help	1	6.67%
Make the quizzes a LITTLE longer so grades aren't as effected if a question is missed.	1	6.67%

36) Given the uncertainties of the pandemic situation, what factors supported or hindered your learning in this course?

Response Text	Frequency	Response Percent

13) What did you especially like about this course?

Response Text	Frequency	Response Percent
Anna Bella was very passionate about the subject matter and you could tell she cared about her students. She tested and graded in a way that was challenging our knowledge while still remaining completely doable. I loved the readings she chose and appreciated the discussions we had where all sides were explored.	1	2.78%
Anna-Bella was very knowledgable and always more than willing to help with any questions I had.	1	2.78%
Deadlines and other due dates were displayed very well. The instructor provided the chance to review papers before turning them in. You were given the chance to participate in different ways.	1	2.78%
Everything	1	2.78%
How lenient the due dates were with papers and the easy availability to get extensions. It really helped with personal problems throughout the semester.	1	2.78%

I am not an ethics major, have never taken an ethics course before, and do not plan to work with ethics in the future. However, this course applied ethical concepts to real-world situations in a way that allowed the ethical discussions to feel "human," while still pulling from ethical analytical tactics. I would frequently text my mom with cool things we had learned from that day's class, as I was provided lots of new ways to think about things.	1	2.78%
I enjoyed discussing topics about the articles we read as a whole class. I also appreciated that we didn't have a major homework load, but that we still put effort into class discussions and papers.	1	2.78%
I enjoyed the freedom we had to express our own opinions on the subject matter without being judged by classmates with differing views.	1	2.78%
I enjoyed the opportunity for student input in every class and the professor's effort to help us understand all of the concepts. I enjoyed the material itself a lot too and found myself able to engage myself rather easily.	1	2.78%
I just really liked the topics we discussed, it kept me engaged.	1	2.78%
I like how much it was based on discussion you can learn a lot from other peoples point of view so I liked that	1	2.78%
I like how there are essays assigned throughout the course and there is no final exam.	1	2.78%
I liked how every deadline is clearly stated and the course is overall very organized and well put together.	1	2.78%
I liked how interactive this course was and it really allowed me to expand my knowledge on medical ethics	1	2.78%
I liked how involved the class was in discussions	1	2.78%
I liked how much critical thinking goes into this class. I felt my views were constantly changing throughout the semester because I have not been shown such unique ways to look at an issue. I found the course very thought-provoking and engaging. I also found it very helpful that the professor highlighted key points.	1	2.78%
I liked how straightforward this class was and what was expected of us! Please keep it that way because a crowded D2L page is always the worst.	1	2.78%
I liked how the class was organized grade-wise. All of the assignments seemed intentional and the teacher was very understanding of other things happening in her students lives.	1	2.78%
I liked how the professor made it interesting by getting us involved in conversations	1	2.78%
I liked that due dates for papers were flexible, this was very helpful.	1	2.78%
I liked the atmosphere that was created in our class. especially with a conversation and opinion-based class, everyone was able to be respected and cared for and felt like our opinions matter.	1	2.78%
I liked the content	1	2.78%

I liked the topics that we discussed in class because I felt like they were relevant to me in my day to day life.	1	2.78%
I really enjoyed getting to know my peers and their opinions. I never felt like my opinion did not matter or that it was wrong. I thought that getting to hear everyone else's thoughts was helpful in understanding some of the dense material.	1	2.78%
I really liked that it was a primarily discussion-based class. I felt like we had very productive and insightful conversations. Additionally, the workload was manageable and meaningful! What I liked about this course was how we had weekly quizzes and open discussions. The quizzes really helped me solidify my understanding of certain topics and lessons taught that week. Open discussions allowed me to better comprehend my own understanding of topics from hearing what my classmates and professor had to say. The papers were not too bad and had guided outlines that really helped out a lot. The professor was very understanding and overall had a great attitude for class which was nice	1	2.78%

14) What suggestions would you make to improve this course?

Response Text	Frequency	Response Percent
Better attendance or taking it out. The current system is, for lack of better words, non-effective.	1	2.78%
have more activities in class instead of open discussion, it doesn't engage the entire class as well	1	2.78%
Having multiple attempts on the weekly quizzes.	1	2.78%
i dont know	1	2.78%
I have no suggestions. This is a great course and I would recommend anyone to take it.	1	2.78%
I think I would do more group/peer-based conversations rather than always whole class because sometimes we just get stuck and don't really know what to say	1	2.78%

I think it was great maybe with units that are a bit more controversial just recognizing that and explaining why we are only looking at the medical side not personal views	1	2.78%
I think the course did not need to be 1 hr and 15 minutes since most of the material could have been covered in under an hour, at times it felt like the discussion was dragging on.	1	2.78%
I think the reading material was often difficult. If there was a subsequent reading that explains the material more simply, I would feel better about discussing the topics in class.	1	2.78%
I wish there was a little more lecture component - Anna-Bella starts each class with a bit of a summary about the reading and the concepts we will be exploring, and I wish that summary was written down and projected so that we could see it. I know that you learn through discussion, but because this course is *so* discussion based, I felt I had a hard time articulating what, exactly, we learned. Adding a little bit more lecture and a little less discussion would help me better articulate that.	1	2.78%
I would like a few more assignments or maybe a second attempt on the weekly quiz. Sometimes I have a hard time reading and understanding and might miss a question due to this and having a second chance would be good.	1	2.78%
I would say that some of the readings were hard to comprehend as someone without a previous background in philosophy.	1	2.78%
I would suggest making the discussions more engaging by relating the readings more to topics that are current events	1	2.78%
I would suggest possibly having 2 attempts for quizzes if possible just because quizzes are a good portion of our grade.	1	2.78%
I would suggest to break down the reading prior to class meeting.	1	2.78%
I would??ve liked seeing the correct answers to the weekly quizzes after they were completed. Also, the periods of class where we were told to talk with our classmates sometimes lasted longer than necessary and led to unproductive class time.	1	2.78%
less papers	1	2.78%
Less student discussion time & more lecture	1	2.78%
Maybe less papers but tbh they weren??t bad	1	2.78%
Maybe more opportunity for points because I feel like there are not as many opportunities to improve your grade if you do not do well.	1	2.78%
Maybe to not have the quizzes timed because sometimes its really hard to understand the questions.	1	2.78%
More interactive discussions	1	2.78%

nothing	1	2.78%
Perhaps allow students to receive more credit after completing the participation quota. It shouldn't be too high of a point per participation after the quota but still rewarding because a lot of people wouldnt talk in class sometimes and I didnt hear a lot of people want to talk besides the couple of us who were eager to talk about and share experiences!	1	2.78%
To improve this course, I would suggest talking more in depth about the topics we are discussing rather than only the articles.	1	2.78%
To possible improve this course, I would say to include maybe a collection of short readings instead of one very long reading.	1	2.78%
While I liked the content, I felt like we only looked at one side of the argument at times. For instance, for the abortion argument, we focused on a variety of different pro-choice views, and not one moral argument that represented a pro-life perspective. I think it would be interesting to analyze more extreme views throughout the class that represents a variety of both conservative and progressive views in order to better understand the ethical arguments of a variety of different people.	1	2.78%

I think there could be some more freedom allotted for choosing what to write in papers, or even what to write about. But overall, this class pleasantly surprised me! I really enjoyed learning about medical ethics and the teacher was very engaging and knowledgeable about the subject. She was also very organized and personable, sending out emails and often offering help. She seemed to care about the students on a personal level and did a great job!	1	2.78%
I thoroughly enjoyed this course, and loved to hear what Anna-Bella had to say regarding the issues discussed in class	1	2.78%

I truly enjoyed this course and learned so much. The professor was very fair, welcoming, and understanding to students. She always had a positive attitude in class and challenged us to "dig deep" into our philosophical thinking which was helpful. The layout of the class and the assignments were very well-balanced.	1	2.78%
It was hard to tell sometimes if Anna-Bella was asking us a question where she wanted to see our opinion, or if she was asking us a question in which there was one right answer. Additionally, sometimes I felt she would discount or disregard a student's understanding of the reading, saying "that's not right" instead of first acknowledging what they understood from the reading, and then saying "but that's not exactly what I was looking for"	1	2.78%

this class was very interesting and honestly fun I never dreaded coming to this class because it always raised my mood and made me feel like I was a part of something especially after being in only lecture hall-sized classes it's nice to actually work and converse with peers.	1	2.78%
This instructor did an amazing job with this course and I was able to learn a lot. I was given very helpful feedback that allowed me to improve my understanding of the topics of the course.	1	2.78%

D2L made it very easy to complete schoolwork from anywhere. Anna-Bella was also very good at answering emails.	1	2.78%
Due to the school shooting that happened earlier in the semester I was scared to be on campus for a week.	1	2.78%
Even though this course was in-person, our teacher was lenient and understanding about our situations.	1	2.78%
Flexible due dates were helpful	1	2.78%

having the material I needed to be successful in class available online & not having mandatory attendance	1	2.78%
i appreciated how she had an online lecture posted when she thought she had covid.	1	2.78%
I didn't experience any problems this semester relating to the pandemic situation.	1	2.78%
I didn't feel the pandemic hindered my learning.	1	2.78%
I think the class was very good for a post-pandemic world especially since it is small we could still have interpersonal connections. Maybe what would help is posting the slides from the class each day or have a zoom.	1	2.78%
illness and mental health	1	2.78%
It was all in person but there were built in ways so if you go sick and had to miss class it didn't effect your grade.	1	2.78%
It would've been helpful to have some slides on D2L that summarized and explained the readings a bit more.	1	2.78%
My roommate tested positive for COVID and I wasn't able to attend class for a week so I notified my professor for this course and she was very understanding and helped me get back on track. I really appreciated it.	1	2.78%

The instructor highlighted the important paragraphs in our readings, which makes the readings a lot of easier. All of the quizzes and exams are exactly materials on the lecture slides.	1	6.25%
This was one of the best courses I???ve taken at my time in the university. Anna-Bella is very knowledgeable in the subject matter and makes all her quizzes and exams fair and based off the material. This class was also very interesting and opened my eyes to a lot of certain topics.	1	6.25%

34) What suggestions would you make to improve this course?

Response Text	Frequency	Response Percent
Don't hide some of the materials that we need for assignments.	1	6.25%
Lecture videos that help better understand the reading were not always very clear. Some ideas and concepts felt really random. Prompts for papers could also use some rewording because they were difficult to understand. Criteria for papers were not super clear and felt like nothing was ever good enough even after using the suggested tools	1	6.25%

Quizzes were not gone over - there was no way of being able to improve if we don't know what we did wrong Answer keys were not posted and questions we got wrong weren't shown after completion of quiz There isn't much engagement within this class. Every week is exactly the same: read papers, watch lectures, and take difficult quiz.	1	6.25%
Some of the expected outcomes of assignments can be challenging.	1	6.25%
The only suggestion I have is to maybe include a discussion post at least once. Since it was completely online, it felt just a bit alienating from everyone, especially since I couldn't talk about things with people.	1	6.25%

Anna-Bella was a good TA.	1	6.25%
great class	1	6.25%
I have never had a graduate student teacher that was as thorough as you. I actually learned so much in this course and am really thankful for the time and effort you put into teaching. Thank you!	1	6.25%
I loved that Anna-Bella had video lectures that went along with the readings in this course. It helped a lot especially when I would have difficulty understanding some of the readings/articles, I knew that by watching her corresponding video lecture she could explain it to me and I would have a better understanding of the material.	1	6.25%
In questions that were related to opinion based, she took points off for having a different opinion. She also made us download Grammarly and it messes up my laptop.	1	6.25%

Anna-Bella was chill. The way she spoke thru the lectures made the ideas easy to follow.	1	11.11%
I liked how the professor conducted her lectures. She seemed really down to earth and her style definitely helped the material resonate with us.	1	11.11%
I liked that the papers were written in our own words so we could show understanding and we weren't just citing things from other sources.	1	11.11%
I was really looking forward to the course in general and although it was different from what i expected it was really interested to touch on topics that like Buddhism that i enjoyed.	1	11.11%
It really had me thinking about life and happiness.	1	11.11%
Nothing. It's just for credit but still, this was awful. For a course based around happiness, its crazy how unhappy it made me.	1	11.11%
The 28 days meditation challenge helped me work on my anxiety.	1	11.11%
the lectures that helped tie any loose ends of the readings up. they helped me understand the readings better.	1	11.11%
The readings were particularly tough to understand in this course. I liked that our instructor would go back through and explain in word I could actually understand.	1	11.11%

34) What suggestions would you make to improve this course?

Response Text	Frequency	Response Percent
don't really have any complains about the course.	1	11.11%
I would advise people to listen to the lectures first prior to complete the readings, as this really helped me understand the information more.	1	11.11%
Make it mean something. So many theories and points being made that mean nothing. As a general student I had no connection to any of it and it made it mind numbing. Find a way to make the theories and ideas connect to real life and not like someone ate a thesaurus then regurgitated all of it.	1	11.11%
Maybe have a couple of discussion posts throughout the course to interact with classmates and get their view on the material.	1	11.11%
none	1	11.11%

Nothing I can think of at the moment. I enjoyed all the course materials and assignments. Learned alot from the course.	1	11.11%

13) What did you especially like about this course?

Response Text	Frequency	Response Percent
How understanding and supportive the instructor was.	1	6.67%
I enjoyed how every reading built upon the previous and referenced authors we were already exposed to. The conversations in class were always purposeful and I left each meeting with a deeper understanding. I have never been affected by content as much as I have in this class.	1	6.67%
I enjoyed our discussion sessions in class.	1	6.67%
I enjoyed the readings and other materials involved in this course.	1	6.67%
I especially liked the discussion based part of this class	1	6.67%
I like the small class size that allows close and deep conversations.	1	6.67%

I loved Anna-Bella's teaching style, choice of assignments, and how the class was structured. I wouldn't change a thing about any of them. The class structure is the best I've experienced while in college; all the material called back to previous/future material and it was great at reinforcing what we had learned. Additionally, I could tell that Anna-Bella truly cared about us and made sure we were understanding the material.	1	6.67%
I really enjoyed the participation was not mandatory, that we have in-depth class discussions, and the incredibly interesting readings.	1	6.67%
Interesting subject material	1	6.67%
It's a student-guided class and it offers us more freedom and choices than any other classes.	1	6.67%
judgement free and welcoming learning space.	1	6.67%
The constant communication from the instructor, her explanation of each topic and her ability to support each individual student's needs.	1	6.67%
The layout of the course and progression helped to make the course very easy to understand. The professor was very approachable and very clearly laid out expectations from day one	1	6.67%
This class structure was incredible -- one of the best classes I've taken at UA. Anna-Bella is an excellent teacher who thoroughly engages students, has expertise on the subject, and conducts discussions better than any professor I've had before. Really, hats off to her.	1	6.67%
This course was easily one of the best I've taken at U of A. The discussion style allowed for a learning environment that encouraged learning in an engaging way from multiple perspectives.	1	6.67%

14) What suggestions would you make to improve this course?

Response Text	Frequency	Response Percent
Encourage more critical engagement between students to fully utilize the intimate class style that already existed.	1	6.67%
Frankly, I loved it. Not exaggerating when I say I have none.	1	6.67%
I always appreciate attendance not being necessary but in discussion based classes I think it should be. Perhaps four excused absences should be allowed. I wish I could have heard more opinions.	1	6.67%
I have no suggestions at this time.	1	6.67%
I have no suggestions, I loved the course as it was.	1	6.67%
I wish we were given a little more of a heads up with upcoming papers, when multiple professors tell you about a paper due in less than a week it gets hard to manage. Also wasn't the biggest fan of when we would write and reflect at the end of class if we aren't turning it in.	1	6.67%
I would say to make quizzes due on sundays rather than fridays	1	6.67%

If the class was longer that would be awesome	1	6.67%
n/a	1	6.67%
None	2	13.33%
None! I loved it.	1	6.67%
none.	1	6.67%
The only suggestion I have is I would have loved to have some videos online of the professors explanations of topics to reference back to; i am aware this takes a lot of time and energy so it is a personal preference that is not needed for the course	1	6.67%
Would appreciate if the materials are timeline organized.	1	6.67%

33) What did you especially like about this course?

Response Text	Frequency	Response Percent
Additional readings were really cool!	1	3.03%
Having my views challenged.	1	3.03%
I appreciated how the professor posted lecture slides discussing the reading and what specifically we were supposed to get out of it. It helped me focus and supported my understanding.	1	3.03%
I enjoyed all of the different topics we discussed that were real-world ethical questions we have on a regular basis. I enjoyed the teachers' assignment format and the recorded lectures.	1	3.03%
I liked how all of the assignments were based on the slides that were provided in class	1	3.03%
I liked that the content helped to expand my perspective on subjects I am interested in	1	3.03%
I liked that the modules were organized in a way that accommodated all learning styles. There were powerpoints and video lectures that helped clarified the readings. I also appreciated that everything was laid out at the start of the course. The content and vehicle for each assessment was well anticipated.	1	3.03%
I liked the topics	1	3.03%
I loved the learning material of the course and how the assignments were set up. I also enjoyed having different options for each assignment.	1	3.03%
I really appreciate the instructor taking the time to review the readings, condensing the information, and making sure it is understood. The verbiage in some of the readings was confusing or boresome in a way, but the lectures surely engaged me.	1	3.03%
I really enjoyed the content and readings with this course. They were all very engaging. I also really appreciated the structure and format Anna-Bella created for us. As someone who normally hates online courses, this has been the most organized and clear class I have taken in a while!	1	3.03%

The content was very interesting and of an unmeasurable importance to humankind.	1	3.03%
The instructor has the entire course open from the first day of the semester so it makes it very flexible and easy to work into your schedule. If there is a week you know you will be really busy you can get ahead. The funny pictures and memes she includes in her lectures are also great and gave me a good laugh.	1	3.03%
The layout of each week because I learned without it being overbearing. It also made me think a lot about the different perspectives when it comes to ethics.	1	3.03%

34) What suggestions would you make to improve this course?

Response Text	Frequency	Response Percent
A discussion section or have class in person. To not have debate in an ethics class is crazy to me.	1	3.03%
Add in more course work as grades for this class are only based off nearly 10 assignments.	1	3.03%
Easier to read/understand reading materials	1	3.03%
I think this course ran very smoothly.	1	3.03%
Maybe more rubrics/clear expectations. More feedback on written exams as well.	1	3.03%
More creative freedom?	1	3.03%

Nothing, it was great!	1	3.03%
some of the readings were really long which can feel really daunting sometimes, so many finding ways to pin point the most important messages to limit the amount of reading and analysis we have to do to ensure were understanding the material.	1	3.03%
The amount of reading in this course was overwhelming. Perhaps other activities that cover the same material would be much more engaging.	1	3.03%

All the lectures from Anna-Bella were amazing and very explanatory.	1	3.03%
As a business major, I took this course as an ethics requirement and was a little skeptical about the course. However, this course was amazing and presented lots of unique and uncomfortable ethics surrounding the medical field. I did not realize how many problems there were aside from abortion. I'm glad I took this c the instructor provided a great lesson plan every week. Her unique approach to testing and assignments was fantastic.
